Employment Training Panel

ETP is a joint business-labor program funding training that supports the creation and retention of **high-wage, high-skilled jobs**.

ETP serves as the California's **premier economic development resource**.

<http://www.etp.ca.gov>

Background and History

ETP was created in 1983 as the only US program designed to train the existing workforce.

Today:

- Over 800,000 trainees have been trained
- Over 70,000 businesses served
- Over \$1 billion in training funds expended

Employment Training Panel

What does ETP do?

ETP uses a pay-for-performance contract to reimburse the costs for employer-customized job skills training.

ETP doesn't:

- provide training
- mandate training topics
- select training providers

CEWTP Partnership

The Clean Energy Workforce Training Program is CEC and ETP partnership supporting green job skills development within the following areas:

- Energy and Water Efficiency
- Renewable Energy (distributed generation and utility scale)

CEWTP Projects are funded by the American Recovery and Reinvestment Act (ARRA) and not by standard ETP funds.

Clean Energy Workforce Training Program

CEWTP Funding Status

ETP has approved **15 CEWTP Agreements**
(totaling \$5M from ARRA)

ETP has approved additional **High Wage Skills
Training Agreements** (\$3M from WIA/ARRA)

The CEWTP and HWST Agreements are approved
and training has begun.

Clean Energy Workforce Training Program

Program Overview

Funding format - Single Employer Contracts
and Multiple Employer Contracts

Funding for training of incumbent workers
and unemployed individuals seeking
full-time employment

Targeted support of traditionally underserved
populations including veterans and workers
in High Unemployment Areas

Clean Energy Workforce Training Program

Funding Flexibility
